

Does This Protocol Need Institutional Biosafety Committee Review (IBC)?

(Must be completed as Part of IBC, IRB or IACUC application)

To determine whether this protocol needs IBC review, please answer **Yes/No** to the following questions. If during review, the ORRC – IBC/IACUC/IRB determines that your study meet certain criteria, you will be asked to submit the PROTOCOL application to the IBC for review.

Criteria	YES	NO
1. This project will require use of vertebrate animal subjects.	<input type="checkbox"/>	<input type="checkbox"/>
2. This project will require use of human body fluids, and you will store, or analyze the samples in a non-commercial or your laboratory at HU?	<input type="checkbox"/>	<input type="checkbox"/>
3. This project will require the use of human and/or primary or established cell lines (#3 only relevant to IRB application).	<input type="checkbox"/>	<input type="checkbox"/>
4. This project will require the use of non-human primate tissues, and/or primary or established cell lines (#4 only relevant to IACUC application).	<input type="checkbox"/>	<input type="checkbox"/>
5. This project will use genetically modified organisms including viruses, bacteria, fungi, animals or plants.	<input type="checkbox"/>	<input type="checkbox"/>
6. This project will require use of recombinant DNA, synthetic nucleic molecules or genetically modified plants or organisms.	<input type="checkbox"/>	<input type="checkbox"/>
7. This project will require use of biohazards or infectious material.	<input type="checkbox"/>	<input type="checkbox"/>
8. This project will involve receipt of or transfer of biological material (Material Transfer Agreement required).	<input type="checkbox"/>	<input type="checkbox"/>
9. This project will require use of ionizing or non-ionizing radiation.	<input type="checkbox"/>	<input type="checkbox"/>
10. This project will require the receipt or transmission of classified information or materials.	<input type="checkbox"/>	<input type="checkbox"/>

If you have responded **“NO”** to all of the above statements, then your application qualifies for an exemption.

If you have responded **“YES”** to items 1 and 2 in the above statements, then your laboratories may need to be inspected, and certified by the Laboratory Safety Officer on behalf of the ORRC - IBC/IRB/IACUC (Assess compliance with appropriate standards).

If you have responded **“YES”** to items 3 to 10 in the above statements, then your application will need to be reviewed by the IBC on behalf of the ORRC - IRB/IACUC.
